

SEMINAR/WORKSHOP  
BEHAVIORAL OPTOMETRY

## Syntonics-Optometry-Basics

BOAF-EASO-CSO - BASIC CURRICULUM - CLASS 101

### VENUE: LONDON HEATHROW - UK

This seminar is organized by BOAF-UK-Contact Geoff Shayler. The venue is just a short drive from one of London's main international airports, Novotel London Heathrow Airport therefore the perfect place for this BOAF event.

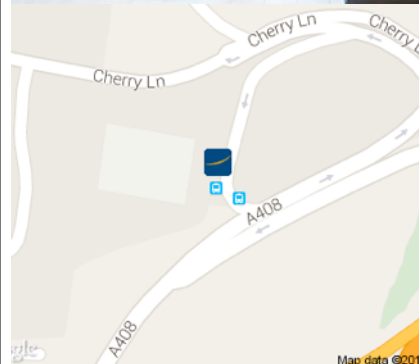

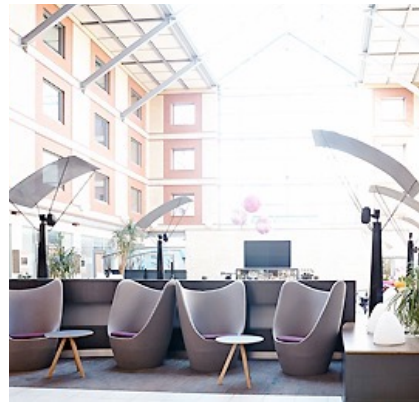

We look forward to receiving your application for these two days of intensive training on the topic Basic Curriculum Syntonics Optometry "Class 101"

January 30-31, 2016 Saturday - Sunday  
From: 9 AM - 6 PM and from: 9 AM - 4 PM

**Early Bird Price:**

BOAF Member: £325 - Non Member: £400

Venue: Novotel London Heathrow Airport Hotel  
Cherry Lane - West Drayton - junction 4m4  
UB7 9HJ Heathrow - UK  
.T: +44 207 6600681 .M: H1551@accor.com  
(Rooms - self reservation)

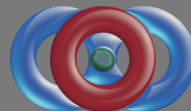

BOAF OFFICE - SANDRA & STEFAN ROTHBAUER

An den Weinbergen 15 - 91413 Neustadt an der Aisch - Germany

Presenter:

**Geoff Shayler,**

*BSc, FCOptom, FCSO - UK -*

London Heathrow - UK

January 30-31, 2016

## SYNTONIC OPTOMETRY BASICS - BASIC CURRICULUM - CLASS 101

Syntonic Optometry - Syntonic phototherapy is noninvasive and quick acting.

It works via the application of specific bands of low power light through the eyes. It has been used clinically for over 80 years in the field of optometry with continued success in the treatment of visual and cognitive dysfunction, including strabismus, amblyopia, focusing and convergence problems, learning disorders, and the aftereffects of stress, brain injuries and emotional/mood disorders. Syntonics is based on scientific principles.

Biophotomodulation, the science of light therapy, is one of the fastest growing areas of scientific and clinical research.

### **Curriculum 101**

A two-day basic course, provides participants with in depth knowledge of Syntonic Optometry - Syntonic phototherapy history, theory and hands-on application of the basic syntonic diagnostic and clinical protocols.

Attendees will learn to look for the source of common visual problems through visual field, pupil and binocular testing unique to syntonics and to apply light to rebalance and remediate the symptoms.

What typical Syntonic Optometry syndromes do we know and what are the basic filter combinations that we use?

How to apply Syntonic Therapy? We will also cover concepts like Nascentization and Syntonic Morphological analyses.

Syntonic-Optometry cases are discussed in the form of a workshop.

### **Geoff Shayler - UK -**

BSc, FCOptom,  
FCSO Honorary  
Member of  
BOAF.

Geoff has been  
combining  
Syntonic  
Optometry with  
Optometric  
Vision Therapy

for nearly 20 years. His research has led to 35 published articles in optometric journals. In 2013, he was presented with H.R. Spitler Award for his outstanding research in Syntonic Optometry at the 81st Light and Vision Conference in Florida, only the 3rd time it has been presented to an optometrist from outside the USA.

### **Seminar Logistics**

Seminar in English / without translation

January 30 - 31, 2016

Day 1 - Saturday

Starts: 09.00 AM

Ends: 06.00 PM

Day 2 - Sunday

Starts: 09.00 AM

Ends: 04.00 PM

Coffee break and Lunch included!

Seminar handouts provided on a Flash-drive and Certificate from BOAF - EASO.
