# Essential elements

## Topic

### Seminar 1 "Syntonics for Newbies"

This seminar is a one-day fast track seminar that will provide a solid introduction into the Foundation & Principles & Basic Underlying Components of Functional Syntonic Optometry (FSO).

This Seminar is ideal for newcomers who want to get started with FSO

### Seminar 2 "Syntonics in: Sports Vision, Myopia, TBI, Trauma, Strabismus, Children & Learning"

This Seminar is a two days presentation in which Stefan will demonstrate how to implement Functional Syntonic Optometry into: Sports Vision, Myopia Training, TBI, Trauma, Strabismus and children with Learning problems.

This will lead to the decision making process to employ Specific Syntonic Filter Combinations for each treatment plan. Finally, Stefan will explain the rehabilitative process leading to improved visual processing and overall recovery.

Syntonic equipment to use during the workshops will be provided by SYntonac International LLC.

## Presenter

**Stefan Collier**, is a leader in bringing Behavioral / Functional Optometry and Syntonics to Europe. Stefan's knowledge, and willingness to share, has allowed him to have several awards bestowed upon him over the years.

- 2002 & 2004 The Armand Bastien Award from OEPF
- 2010 The Skeffington-Alexander International Award from OEPF
- 2011 The Spitler Award from CSO
- 2012 The Lifetime Achievement Award from BOAF
- 2014 The International Lifetime Achievement Award from OEPF
- 2015 The Premio Robert y Linda Sanet-Award from SIODEC
- 2016 The Advancement of Neuro-Optometric Rehabilitation Award from NORA
